TOGETHER INFORMATION

KEY FEATURES

1. Print, scan and copy in A3 on a system with an A4 footprint.
2. Impressive image quality at a speed of 28 pages per minute.
3. Economically and ecologically efficient thanks to duplex printing, internal toner recycling and energy save modes as standard.

Handle multiple functions with the easy-to-use control panel. Scan to USB drives and other portable devices. Just plug in, and go. Network connectivity and USB 2.0 come standard.

BENEFITS

Space is often limited and printing solutions need to be extremely flexible in order to cater for all the different documents that are needed. Even though printing in A4 format is the standard, in many cases there are tasks that require A3 printing, scanning and copying too. But more often than not, companies simply do not have the space for a conventional A3 format multifunctional system. That is precisely why Toshiba developed the e-STUDIO2802AF.

Small space - large functionality

Thanks to its modern, clean lines and streamlined contours, the unit fits harmoniously into its surroundings. But looks aren't everything. Packed with all functions needed in a modern office environment - including colour scan - the systems are extremely reliable.

- Connectivity
  - The e-STUDIO2802AF are easy to integrate into existing networks. You can also print and scan directly from USB.
- Intuitive Usage
  - Ease-of-use is key if you want to be productive. Therefore, we have made sure all functions are easy to access and intuitive to use.
- Efficient
  - With the e-STUDIO2802AF you can increase your efficiency in multiple ways. Ecological efficiency, thanks to resource saving features directly translates into economical efficiency: Thanks to the low running costs, you benefit by saving money.

Even if space is limited — your possibilities are not.
